DETAILED OFFICE ACTION

Applicant's amendment filed on 06 June 2005 is acknowledged and entered. Following the amendment, claims 1, 2, 4, 5, 7, 8, 10, 11, 17, 18 and 31-33 are canceled, claim 3 is amended, and the new claims 34-37 are added.

Currently, claims 3, 6, 9, 12 and 34-37 are pending and under consideration.

Withdrawal of Objections and Rejections:

All objections and rejections of claims 1, 2, 4, 5, 7, 8, 10, 11, 17, 18 and 31-33 are moot as the applicant has canceled the claims.

The objection of claim 3 for encompassing a non-elected subject matter, SEQ ID NO:10 is withdrawn in view of applicant's amendment.

The provisional double patenting rejection of claims 3, 6, 9 and 12 is withdrawn in view of applicant's amendment.

The rejection of claims 3, 6, 9, 12 under 35 U.S.C. 112, second paragraph, as being indefinite is withdrawn in view of applicant's amendment.

Formal Matters:

Specification

The disclosure remains objected to because it contains an embedded hyperlink and/or other form of browser-executable code (page 6, lines 9, 10 and 19, for example), for the reasons of record set forth in the last Office Action mailed on 22 September 2004, at page 2.

Applicants argument filed on 06 June 2005 has been fully considered, but is not deemed persuasive for reasons below.

At page 4 of the response, the applicant argues that the MPEP does not prohibit the use of information at page 6 if it is presented in the manner applicants have. This argument is not persuasive because MPEP indeed prohibits the use of embedded hyperlinks as it clearly states (MPEP § 608.01):

Examiners must review patent applications to make certain that hyperlinks and other forms of browser-executable code, especially commercial site URLs, are not

Application/Control Number: 09/919,162

Art Unit: 1646

Page 3

included in a patent application. Examples of a hyperlink or a browser-executable code are a URL placed between these symbols "< >" and http:// followed by a URL address. When a patent application with embedded hyperlinks and/or other forms of browser-executable code issues as a patent (or is published as a patent application publication) and the patent document is placed on the USPTO web page, when the patent document is retrieved and viewed via a web browser, the URL is interpreted as a valid HTML code and it becomes a live web link. When a user clicks on the link with a mouse, the user will be transferred to another web page identified by the URL, if it exists, which could be a commercial web site. USPTO policy does not permit the USPTO to link to any commercial sites since the USPTO exercises no control over the organization, views or accuracy of the information contained on these outside sites.

If hyperlinks and/or other forms of browser-executable code are embedded in the text of the patent application, examiners should object to the specification and indicate to applicants that the embedded hyperlinks and/or other forms of browser-executable code are impermissible and require deletion. This requirement does not apply to electronic documents listed on forms PTO-892 and *>PTO/SB/08< where the electronic document is identified by reference to a URL. The attempt to incorporate subject matter into the patent application by reference to a hyperlink and/or other forms of browser-executable code is considered to be an improper incorporation by reference. See MPEP § 608.01(p), paragraph I regarding incorporation by reference.

In the instant case, the hyperlinks or the browser codes presented in the specification are executable codes, and therefore, they are prohibited according to MPEP. The Applicant is required to delete these embedded hyperlink and/or other form of browser-executable code.

Claims

Claims 3, 36 and 37 are objected to for the improper recitation of sequence number "SEQ. ID. NO:". The proper format to recite a sequence is "SEQ ID NO:". Correction is required

Claims 36 and 37 are further objected to as being dependent upon a canceled claim, claim

1. The applicant is required to rewrite the claims in independent form including all of the limitations of the base claim and any intervening claims, or to amend the claims to depend on a pending and elected claim.

Rejections Over Prior Art:

Art Unit: 1646

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3, 6, 9, 12, 34 and 35 are rejected under 35 U.S.C. 102(e) as being anticipated by Presnell et al., US2002/0012669 A1, for the same reasons addressed in the rejection of claims 1, 2, 4, 5, 7, 8, 10, 11, 17, 18, and 31 under 35 U.S.C. 102(e) as being anticipated by the same reference, set forth in the last Office Action mailed on 22 September 2004, at page 7.

Conclusion:

No claim is allowed.

Claims 36 and 37 would be allowable if amended to overcome the objections thereto.

Advisory Information:

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Dong Jiang whose telephone number is 571-272-0872. The examiner can normally be reached on Monday - Friday from 9:30 AM to 7:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa, can be reached on 571-272-0829. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
